**InLei® LAMICA GEL – Adhesive for silicone shields**

Release num. 001  
date 25/01/2022

## Safety Data Sheet

Complies with Annex II of REACH - Regulation (EU) 2020/878

### Information Sheet for finished cosmetic products

#### **SECTION 1. Identification of the substance/mixture and of the company/undertaking**

##### **1.1. Product identifier**

Product name **InLei® LAMICA GEL – Adhesive for silicone shields**

##### **1.2. Relevant identified uses of the substance or mixture and uses advised against**

Intended use **not available**

##### **1.3. Details of the supplier of the safety data sheet**

| Other potentially hazardous components                                                                                        |              |
|-------------------------------------------------------------------------------------------------------------------------------|--------------|
| 1. Ethanol o Isopropanol<br>The percentage by weight (w/w) of ethanol and/or isopropanol shall be indicated for all products. | ALCOHOL (8%) |

### **SECTION 4. First aid measures**

**INHALATION:** Remove victim to fresh air and provide oxygen if breathing is difficult. Give artificial respiration if not breathing get medical attention immediately.

**EYE CONTACT:** Immediately flush eyes with running water for at least 15 minutes. If redness, itching or a burning sensation develops, see a physician.

**SKIN CONTACT:** Remove contaminated clothing/shoes and wipe off excess from skin. Wash exposed area with soap and water. If redness, itching or a burning sensation develops, get medical attention.

**INGESTION:** Get medical attention immediately.

**NOTE TO PHYSICIANS:** None for this material.

### **SECTION 5. Firefighting measures**

**Extinguishing media:** Use dry chemical, carbon dioxide, foam or spray as appropriate for surrounding fire.

**Fire fighting Instructions:** Do not enter any enclosed or confined fire space without full protective equipment, including self-contained breathing apparatus to protect against hazardous effects of combustion products and oxygen deficiency.

### **SECTION 6. Accidental release measures**

**Small Spills:** Dike and absorb with inert material such as sand and remove all liquid of the use of a vacuum system. If unstable to remove liquid, then begin to absorb with sand, saw dust or commercial absorbent, and scoop up and place in containers for proper disposal. Keep spills and cleaning runoff out of the municipal sewers and open bodies of water. Decontaminate all clothing and the spill area with a detergent and large amounts of water.

**Large Spills:** Use the same procedure as small spill.

### **SECTION 7. Handling and storage**

**Handling precaution :** Avoid eye contact. Avoid prolonged or repeated breathing of vapors and mists. If spilled on clothing, launder before reuse. Do not take internally. Use only in a well ventilated area. Keep out of the reach of children.

**Storage Requirements :** Keep from freezing. Product will coagulate. Keep container tightly closed when not in use. Don not get in eyes, on skin or on clothing. Monomer vapors can be evolved with materials is heated. Containers, even those that have been emptied, will retain product residue and vapors and are subject to proper waste disposal, as above.

### **SECTION 8. Exposure controls/personal protection**

**Protective Clothes/Equipment:** The use of gloves impermeable to specific material handled is advised to prevent skin contact and possible irritation. Use Chemical Goggles if splashing may occur.

## **SECTION 9. Physical and chemical properties**

**Physical State:** Liquid

**Water solubility:** Soluble

**Flash point:** N/A

## **SECTION 10. Stability and reactivity**

**Hazardous decomposition products:** Thermal decomposition may yield acrylic monomer, carbon monoxide and carbon dioxide. Unidentified organic compounds in fumes and smoke may be formed during combustion.

## **SECTION 11. Toxicological information**

**Toxicity:** Bond skin rapidly and strongly Skin and eye irritant

**Routes of Entry:** Inhalation (YES), Skin (YES), Ingestion (YES)

**Carcinogen etc:** See section 3

## **SECTION 12. Ecological information**

No data available

## **SECTION 13. Disposal considerations**

**Disposal:** Dispose of unused product or contaminated product and materials used in cleaning un spills or leaks in a manner approved for this material. Consult appropriate federal, state and local regulatory agencies to ascertain pr disposal procedures.

## **SECTION 14. Transport information**

**IATA:** Not restricted

**CLASS:** Unlisted

**UN Number:** Unlisted

## **SECTION 15. Regulatory information**

**CA Proportion 65 :** No California proposition 65 chemicals are known to be present.

## **SECTION 16. Other information**

Material safety data sheet on voluntary basis.

Basically the product is non hazardous. A MSDS is not mandatory required. We provide on voluntary basis a data sheet according to REACH regulation 1907/2006.

This safety data sheet has been completely updated in compliance to Regulation 453/2010/EU. The information contained herein is based upon data and information available to us, and reflects our beste professional judgment, but is offered without guarantee or warranty. This information is furnished upon the condition that the person receiving it shall make his own determination of the suitability of the material for his particular use.
