Tel. +39 035 511355 | Email: info@selitasrl.com

InLei® - LADY SHIELD - Protective cream for the skin around the eyebrows

Safety Data Sheet

Complies with Annex II of REACH - Regulation (EU) 2020/878

Information sheet for finished product

SECTION 1. Identification of the substance/mixture and of the company/enterprise

1.1. Product identifier

Code: --
Name: InLei® LADY SHIELD - Protective cream for the skin around the eyebrows

1.2. Relevant identified uses of the substance or mixture and uses advised against

Description/Use: protective eyebrow contour cream.

Identified Uses	Industrial	Professional	Consumer
Packaged cosmetic product. Take a small amount of cream and spread it on the skin around the eyebrow arch with gentle finger movements or with the help of a cotton ball.	-	-	PC: 39.

Uses Not Recommended

all uses not listed in the recommended uses

Use directly without dilution or appropriate packaging.

Do not use for purposes other than those intended; do not apply to broken skin; do not ingest; do not use in a manner not in accordance with instructions.

Do not ingest

1.3. Details of the supplier of the safety data sheet

Company Name: SELITA SRL
Address: Via Nicolò Rezzara, 15
Location and State: 24020 Ranica (BG)
Italy
Tel. +39 035 511355 – Cell. +39 389 5618546

email of the competent person,
responsible for the safety data sheet: info@selitasrl.com

1.4. Emergency telephone number

For urgent information, please contact

+39 035 511355/+39 389 5618546 (Mon-Fri 9:00-18:00). Provides initial technical support.
National Poisons Information Center (UK): 0344 892 0111 for healthcare professionals only
Vergiftungsinformationszentrale (VIZ) (Austria): +43 1 406 43 43

Instituto Nacional de Toxicología y Ciencias Forenses (Spain): +34 917689800

SECTION 2. Hazards identification

2.1. Classification of the substance or mixture

The product is not classified as dangerous according to the provisions of Regulation (EC) 1272/2008 (CLP). However, the product contains hazardous substances in concentrations that must be declared in section 3, and therefore requires a safety data sheet with adequate information, in compliance with Regulation (EU) 2020/878.

Classification and hazard statements: --

2.2. Label elements

Hazard labelling pursuant to Regulation (EC) 1272/2008 (CLP) and subsequent amendments and adjustments.

Hazard pictograms: --

Warnings: --

Hazard statements:
EUH210 Safety data sheet available upon request.
EUH208 Contains: Bisabolol, BENZYL ALCOHOL
May cause an allergic reaction.

Precautionary advice: --

2.3. Other dangers

Based on available data, the product does not contain PBT or vPvB substances in percentages ≥ 0.1%.

The product does not contain substances with endocrine-disrupting properties in concentrations ≥ 0.1%.

SECTION 3. Composition/information on ingredients

3.2. Mixtures

Contains:

Identification	x = Conc. %	Classification 1272/2008 (CLP)
BENZYL ALCOHOL		
INDEX 603-057-00-5	0.7 ≤ x < 0.8	Acute Tox. 4 H302, Eye Irrit. 2 H319, Skin Sens. 1B H317
EC 202-859-9		Oral LD50: 1200 mg/kg
CAS 100-51-6		
REACH Reg. 01-2119492630-38		
Bisabolol		
INDEX -	0.1 ≤ x < 0.15	Skin Sens. 1 H317, Aquatic Chronic 3 H412
EC 208-205-9		
CAS 515-69-5		

The full text of the hazard statements (H) is given in section 16 of the sheet.

InLei® - LADY SHIELD - Protective cream for the skin around the eyebrows

SECTION 4. First aid measures

4.1. Description of first aid measures

No effects requiring special first aid measures are expected. The following information provides practical guidance on correct behavior in the event of contact with even non-hazardous chemicals.

If in doubt or if you experience symptoms, contact a doctor and show this document.

In case of more serious symptoms, call 118 for immediate medical assistance.

EYES: Remove contact lenses, if present, if easily accessible. Wash immediately with plenty of water for at least 15 minutes, holding the eyelids apart. Consult a doctor immediately.

SKIN: Remove contaminated clothing. Wash immediately with plenty of running water (and soap if possible). Consult a doctor. Avoid further contact with contaminated clothing.

INGESTION: Do not induce vomiting unless specifically directed by a doctor. Do not administer anything orally to an unconscious person. Seek medical attention immediately.

INHALATION: Remove the victim to fresh air, away from the accident site. Consult a doctor immediately.

Protection of rescuers

It is good practice for first responders assisting a person who has been exposed to a chemical substance or mixture to wear personal protective equipment. The nature of this protection depends on the hazardous nature of the substance or mixture, the route of exposure, and the extent of contamination. In the absence of other more specific indications, disposable gloves are recommended in the event of potential contact with body fluids. For the type of PPE appropriate for the characteristics of the substance or mixture, refer to Section 8.

4.2. Main symptoms and effects, both acute and delayed

There is no specific information available on symptoms and effects caused by the product.

DELAYED EFFECTS: Based on the information currently available, there are no known cases of delayed effects following exposure to this product.

4.3. Indication of any need to immediately consult a doctor and require special treatment

If symptoms occur, whether acute or delayed, consult a doctor.

Resources to have available in the workplace for specific and immediate treatment

Running water for washing skin and eyes.

SECTION 5. Fire-fighting measures

5.1. Extinguishing media

SUITABLE EXTINGUISHING MEANS

The extinguishing means are the traditional ones: carbon dioxide, foam, powder and water spray.

UNSUITABLE EXTINGUISHING MEANS

No one in particular.

5.2. Special hazards arising from the substance or mixture

HAZARDS DUE TO EXPOSURE IN CASE OF FIRE

Avoid breathing combustion products.

5.3. Recommendations for firefighters

GENERAL INFORMATION

Cool containers with water jets to prevent product decomposition and the development of substances potentially hazardous to health. Always wear full fire protection equipment. Collect fire-fighting water, which must not be discharged into sewers. Dispose of contaminated fire-fighting water and fire residues in accordance with applicable regulations.

EQUIPMENT

Normal firefighting clothing, such as open-circuit compressed air breathing apparatus (EN 137), flame-retardant overalls (EN469), flame-retardant gloves (EN 659) and firefighter's boots (HO A29 or A30).

InLei® - LADY SHIELD - Protective cream for the skin around the eyebrows

SECTION 6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Stop the leak if there is no danger.

Wear appropriate protective equipment (including personal protective equipment as specified in Section 8 of the Safety Data Sheet) to prevent contamination of skin, eyes, and personal clothing. This guidance applies to both workers and emergency responders.

6.2. Environmental precautions

Prevent the product from entering sewers, surface water or groundwater.

6.3. Methods and materials for containment and remediation

Vacuum the spilled product into a suitable container. Assess the compatibility of the container to be used with the product, checking section 10. Absorb the remainder with inert absorbent material.

Ensure adequate ventilation of the area affected by the spill. Dispose of contaminated material in accordance with the provisions of section 13.

6.4. Reference to other sections

Any information regarding personal protection and disposal is given in sections 8 and 13.

SECTION 7. Handling and storage

7.1. Precautions for safe handling

Handle the product after consulting all other sections of this safety data sheet. Avoid dispersing the product into the environment. Do not eat, drink, or smoke while using it. Remove contaminated clothing and protective equipment before entering eating areas.

7.2. Conditions for safe storage, including any incompatibilities

Store only in the original container. Keep containers closed in a well-ventilated area, away from direct sunlight. Keep containers away from any incompatible materials, see section 10.

7.3. Specific end uses

Information not available

SECTION 8. Exposure controls/personal protection

8.1. Control parameters

Information not available

8.2. Exposure controls

Considering that the use of appropriate technical measures should always take priority over personal protective equipment, ensure good ventilation in the workplace through effective local exhaust ventilation.

HAND PROTECTION

Protect your hands with category III work gloves.

For the final choice of work glove material (ref. EN 374 standard) the following must be considered: compatibility, degradation, permeation time.

When handling preparations, the resistance of work gloves to chemicals must be checked before use, as it is unpredictable. Gloves have a wear life that depends on their duration and usage pattern.

InLei® - LADY SHIELD - Protective cream for the skin around the eyebrows

SKIN PROTECTION

Wear long-sleeved work clothes and Category I professional safety footwear (ref. Regulation 2016/425 and standard EN ISO 20344). Wash with soap and water after removing protective clothing.

EYE PROTECTION

It is recommended to wear airtight protective glasses (ref. EN ISO 16321 standard).

RESPIRATORY PROTECTION

The use of respiratory protection is necessary if the technical measures adopted are not sufficient to limit worker exposure to the threshold values considered. It is recommended to wear a mask with a type A filter, the class (1, 2, or 3) of which must be chosen based on the limit concentration of use. (Ref. standard EN 14387).

If the substance in question is odorless or its olfactory threshold is higher than the relevant TLV-TWA, and in an emergency, wear an open-circuit compressed air breathing apparatus (ref. standard EN 137) or a fresh air-supplied respirator (ref. standard EN 138). For the correct choice of respiratory protective device, refer to standard EN 529.

ENVIRONMENTAL EXPOSURE CONTROLS

Emissions from manufacturing processes, including those from ventilation equipment, should be monitored to comply with environmental protection legislation.

SECTION 9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

Property	Value	Information
Physical State	viscous liquid	
Color	White	
Odor	characteristic	
Melting or freezing point	not available	
Initial boiling point	not available	
Flammability	not available	
Lower explosive limit	not available	
Upper explosive limit	not available	
Flash point	> 60 °C	
Autoignition temperature	not available	
Decomposition temperature	not available	
pH	not available	
Kinematic viscosity	not available	
Solubility	not available	
Partition coefficient: n-octanol/water	not available	
Vapor pressure	not available	
Density and/or Relative Density	1.00±0.02	
Relative vapor density	not available	
Particle characteristics	not applicable	

9.2. Other information

9.2.1. Information relating to physical hazard classes

Information not available

9.2.2. Other security features

InLei® - LADY SHIELD - Protective cream for the skin around the eyebrows

VOC (Directive 2010/75/EU)	0.73%
VOC (volatile carbon)	0.57%

SECTION 10. Stability and reactivity

10.1. Reactivity

There are no particular dangers of reaction with other substances under normal conditions of use.

BENZYL ALCOHOL

Decomposes above 870°C/1598°F. Possibility of explosion.

10.2. Chemical stability

The product is stable under normal conditions of use and storage.

10.3. Possibility of hazardous reactions

Under normal conditions of use and storage, no hazardous reactions are expected.

BENZYL ALCOHOL

May react dangerously with: hydrobromic acid, iron, oxidizing agents, sulfuric acid. Risk of explosion on contact with: phosphorus trichloride.

10.4. Conditions to avoid

None in particular. However, observe the usual precautions when handling chemicals.

BENZYL ALCOHOL

Avoid exposure to: air, heat sources, open flames.

10.5. Incompatible materials

BENZYL ALCOHOL

Incompatible with: sulfuric acid, oxidizing substances, aluminum.

10.6. Hazardous decomposition products

Information not available

SECTION 11. Toxicological information

In the absence of experimental toxicological data on the product itself, the potential health risks of the product have been assessed based on the properties of the substances it contains, according to the criteria established by the reference legislation for classification. Therefore, consider the concentration of any individual hazardous substances mentioned in section 3 to assess the toxicological effects resulting from exposure to the product.

11.1. Information on hazard classes defined in Regulation (EC) No. 1272/2008

Metabolism, kinetics, mechanism of action and other information

Information not available

InLei® - LADY SHIELD - Protective cream for the skin around the eyebrows

Information on likely routes of exposure

Information not available

Immediate, delayed and chronic effects resulting from short and long-term exposures

Information not available

Interactive effects

Information not available

ACUTE TOXICITY

ATE (Inhalation) of the mixture:	Not classified (no relevant components)
ATE (Oral) of the mixture:	Not classified (no relevant components)
ATE (Cutaneous) of the mixture:	Not classified (no relevant components)

BENZYL ALCOHOL

LD50 (Dermal):	2000 mg/kg Rabbit
LD50 (Oral):	1200 mg/kg
LC50 (Inhalation of vapours):	> 4.1 mg/l/4h Rat

SKIN CORROSION / SKIN IRRITATION

Does not meet the classification criteria for this hazard class

SERIOUS EYE DAMAGE / EYE IRRITATION

Does not meet the classification criteria for this hazard class

RESPIRATORY OR SKIN SENSITIZATION

May cause an allergic reaction.

Contains:

Bisabolol

BENZYL ALCOHOL

GERM CELL MUTAGENICITY

Does not meet the classification criteria for this hazard class

CARCINOGENICITY

Does not meet the classification criteria for this hazard class

REPRODUCTIVE TOXICITY

Does not meet the classification criteria for this hazard class

SPECIFIC TARGET ORGAN TOXICITY (STOT) - SINGLE EXPOSURE

Does not meet the classification criteria for this hazard class

SPECIFIC TARGET ORGAN TOXICITY (STOT) - REPEATED EXPOSURE

Does not meet the classification criteria for this hazard class

DANGER IN CASE OF ASPIRATION

InLei® - LADY SHIELD - Protective cream for the skin around the eyebrows

Does not meet the classification criteria for this hazard class

11.2. Information on other hazards

Based on available data, the product does not contain substances listed in the main European lists of potential or suspected endocrine disruptors with effects on human health under evaluation.

SECTION 12. Ecological information

Use according to good working practices, avoiding release of the product into the environment. Notify the competent authorities if the product has reached waterways or if it has contaminated soil or vegetation.

12.1. Toxicity

Information not available

12.2. Persistence and degradability

BENZYL ALCOHOL
Rapidly degradable

12.3. Bioaccumulative potential

BENZYL ALCOHOL
Partition coefficient: n-octanol/water 1.1

12.4. Mobility in soil

Information not available

12.5. Results of PBT and vPvB assessment

Based on available data, the product does not contain PBT or vPvB substances in percentages ≥ 0.1%.

12.6. Endocrine-disrupting properties

Based on available data, the product does not contain substances listed in the main European lists of potential or suspected endocrine disruptors with effects on the environment under evaluation.

12.7. Other adverse effects

Information not available

SECTION 13. Disposal Considerations

13.1. Waste treatment methods

Reuse if possible. Product residues as is are considered non-hazardous special waste.
Disposal must be entrusted to an authorized waste management company, in compliance with national and, where applicable, local legislation.
Waste management resulting from the use or dispersion of this product must be organized in compliance with occupational safety regulations. See Section 8 for any PPE requirements.
CONTAMINATED PACKAGING
Contaminated packaging must be sent for recovery or disposal in compliance with national waste management regulations.

SECTION 14. Transport Information

The product is not considered dangerous according to the current provisions regarding the transport of dangerous goods by road (ADR), rail (RID), sea (IMDG Code) and air (IATA).

14.1. UN number or ID number

not applicable

14.2. UN official shipping name

not applicable

14.3. Transport hazard classes

not applicable

14.4. Packing group

not applicable

14.5. Environmental hazards

not applicable

14.6. Special precautions for users

not applicable

14.7. Maritime transport in bulk in accordance with IMO acts

Irrelevant information

SECTION 15. Regulatory Information

15.1. Legislative and regulatory provisions on health, safety and environment specific for the substance or mixture

Seveso Category - Directive 2012/18/EU: None

InLei® - LADY SHIELD - Protective cream for the skin around the eyebrows

Restrictions relating to the product or the substances contained in it according to Annex XVII of Regulation (EC) 1907/2006

Product

Point	40
-------	----

Substances contained

Point	75	Benzyl salicylate REACH Reg.: 01-2119969442-31
Point	75	DEPENDENT
Point	75	BENZYL ALCOHOL REACH Reg.: 01-2119492630-38
Point	75	LINALOL REACH Reg.: 01-2119474016-42
Point	75	GERANIOL REACH Reg.: 01-2119552430-49
Point	75	CITRALE REACH Reg.: 01-2119462829-23

Regulation (EU) 2019/1148 - on the marketing and use of explosives precursors

not applicable

Substances in Candidate List (Art. 59 REACH)

Based on available data, the product does not contain SVHC substances in a percentage $\geq 0.1\%$.

Substances subject to authorisation (Annex XIV REACH)

None

Substances subject to export notification requirements Regulation (EU) 649/2012:

None

Substances subject to the Rotterdam Convention:

None

Substances subject to the Stockholm Convention:

None

Health Checks

Information not available

15.2. Chemical safety assessment

A chemical safety assessment has not been carried out for the mixture / substances listed in section 3.

InLei® - LADY SHIELD - Protective cream for the skin around the eyebrows

SECTION 16. Other information

Text of the hazard statements (H) cited in sections 2-3 of the sheet:

Acute Tox. 4	Acute toxicity, category 4
Eye Irrit. 2	Eye irritation, category 2
Skin Sens. 1	Skin sensitization, category 1
Skin Sens. 1B	Skin sensitization, category 1B
Aquatic Chronic 3	Hazardous to the aquatic environment, chronic toxicity, category 3
H302	Harmful if swallowed.
H319	Causes serious eye irritation.
H317	May cause an allergic skin reaction.
H412	Harmful to aquatic life with long lasting effects.
EUH210	Safety data sheet available upon request.

Decoding the use descriptors:

PC	39	Cosmetics, personal care products
-----------	-----------	-----------------------------------

LEGEND:

- ADR: European Agreement concerning the Carriage of Dangerous Goods by Road
- ATE / STA: Acute Toxicity Estimation
- CAS: Chemical Abstract Service Number
- CE: Identification number in ESIS (European Archive of Existing Substances)
- CLP: Regulation (EC) 1272/2008
- DNEL: Derived No Effect Level
- EC50: Concentration that produces an effect in 50% of the test population
- EmS: Emergency Schedule
- GHS: Globally Harmonized System of Classification and Labeling of Chemicals
- IATA DGR: International Air Transport Association Dangerous Goods Regulations
- IC50: Immobilization concentration of 50% of the test population
- IMDG: International Maritime Dangerous Goods Code
- IMO: International Maritime Organization
- INDEX: Identification number in Annex VI of CLP
- LC50: Lethal Concentration 50%
- LD50: Lethal dose 50%
- OEL: Occupational Exposure Level
- PBT: Persistent, bioaccumulative and toxic
- PEC: Predicted Environmental Concentration
- PEL: Predicted Exposure Level
- PMT: Persistent, mobile and toxic
- PNEC: Predicted No Effect Concentration
- REACH: Regulation (EC) 1907/2006
- RID: Regulations for the International Carriage of Dangerous Goods by Rail
- TLV: Threshold Limit Value
- TLV CEILING: Concentration that must not be exceeded during any time of occupational exposure.
- TWA: Time Weighted Average Exposure Limit
- TWA STEL: Short-term exposure limit
- VOC: Volatile organic compound
- vPvB: Very Persistent and Very Bioaccumulative
- vPvM: Very persistent and very mobile
- WGK: Water hazard class (Germany).

Note to user:

The information contained in this sheet is based on our current knowledge as of the date of the latest version. The user must ensure the suitability and completeness of the information for the specific use of the product.

This document should not be construed as a guarantee of any specific property of the product.

Since the use of the product is not under our direct control, it is the user's responsibility to comply with all applicable health and safety laws and regulations.

We assume no liability for improper use.

Provide adequate training to personnel involved in the use of chemicals.

CLASSIFICATION CALCULATION METHODS

Chemical-physical hazards: The classification of the product was derived from the criteria established by the CLP Regulation Annex I Part 2. The methods for evaluating the chemical-physical properties are reported in section 9.

Health hazards: The classification of the product is based on the calculation methods in Annex I of CLP Part 3, unless otherwise indicated in section 11.

Environmental hazards: The classification of the product is based on the calculation methods in Annex I of CLP Part 4, unless otherwise stated in section 12.
